Shrewsbury is a very attractive historic market town nestled in a loop of the River Severn. The town centre has a largely unaltered medieval street plan and features several timber framed 15th and 16th century buildings.

The town was founded around 800AD and has played a significant role in British history, having been the site of many conflicts, particularly between the English and the Welsh. William the Conqueror gave the town to Roger de Montgomery who founded Shrewsbury Castle in 1074 and Shrewsbury Abbey in 1083. Both these historic buildings can be visited by the public.

Shrewsbury was also the birthplace of naturalist Charles Darwin, one of the most influential scientists of the nineteenth century. He was educated at the famous Shrewsbury School, which was also attended by Michael Palin and DJ John Peel.

Nowadays, Shrewsbury is famous as a 'town of flowers'. The town hosts one of the oldest and largest horticultural events in the country, Shrewsbury Flower Show, and is known for its floral displays.

Shrewsbury is a lively town with frequent markets and street fairs and festivals. There are plenty of wonderful places to eat and stay, as well as some great shops. There are also some beautiful, peaceful green places to explore such as the town's stunning Quarry Park, the River Severn path and the Reabrook Valley nature reserve.
